Clear moon
Silver sky
Shining on my face
I see your reflection reaching out to me...
Blue sand brush my feet
Tide brings in new change
Wash my fears away...
Your soft velvet touch decorates my skin
I feel I belong to your warm embrace
Mere words can't express
My awakened heart
You washed my fears away...
I can finally let go
I am free
I can let my true self-show
I am free
Yes and all these time it's been there inside of me...
I can finally let go
I am free...
Sunrays piece the clouds
Melting in my hands
It feels like the warmth of you caressing me
My spirit soars in love with your
You wash my fears away...
I can finally let go...etc
I am free to fly
Free to grow
Free to love
Free to let it go
Free to glide
Free to be
Your love flows inside of me...
I can finally let go
I am free
I can let my true self-show
I am free
Yes and all these time it's been here inside of me...
I can finally let go
I am free...
