I want to share all with you
You're kinda my first guru
The travelling through it all
The moment we hit the wall
The mustard and marmalade
The substance and the facade
I want to share all with you;
The joys and the obstacles, too...
The walk down lovers lane
The spiritual and mundane
The secrets you haven't told
The troubles in getting old
The music in moving clouds
The whispers and talking loud
I want to share all with you.
I'm sure your guards will see us through
This is where I want to be
My baby's close to me
My everything's in clover
This is where I'd love to end
There's no need to pretend
My second thoughts are over...
This is where I feel in port
The house there by the sea
The record you bought for me
The quarrels and deep ravines
The X-rated movie scenes
I've never felt this before
I've got you but I want more
I want to share all with you,
The joys and the obstacles too...
This is where I want to stay
From early June till May
Through storms and sparking rivers
This is where I'd love to grow
My yearnings set on low
THE END of it on never...
This is where I feel in port
The inhibitions and the unfree...
The whole sensuous symphony...
The boredom and the familiarizing...
The laid down schedule and the improvising...

The true art and the mainstream pop...
EVERYTHING adds up and ends with LOVE...
