New Beginning by Randi Laubek from the album: Ducks and Drakes

Music & words: Randi Laubek

It was your good

Sure you know it couldnt have been mine

Who made this happen?

-Fall in love ten years too late in time

I didn't need a test or a fight

So tell me, baby

Did you find out what he really meant?

And is it a good thing

That we both know we will meet again

I didn't a test or a fight

You didn't look for love in your life

This love just felt so right

And I fight from the deepest inside

Coz I want it so badly

I give my love gladly

The tunes keep me going

Its gasoline knowing

That everything will have a new beginning

And I know therell be a new beginning

Well be a new beginning

But why is the right thing

That a love like this must have an end

Did we love just to learn?

That we must never love again

I didn't need a test or a fight...etc.
