Randy Bachman "I Play The Fool For You"

Visit "I Play The Fool For You" on MotoLyrics.com

I played the fool for you one too many times Need to get control, get back on the line But when I'm standing tall 'nealth the shades of blue You walk in the room, I play the fool for you

You walk in the room, I play the fool for you I play the fool for you, what else can I do? I play the fool for you

Played the fool for you time and time again Need to get a life, need to find a friend But when I'm on the town, out with someone new You sometimes pass me by, I play the fool for you

When you pass me by, I play the fool for you I play the fool for you, what else can I do? I play the fool for you

Who do you think you are? What do you want from me? Why do you act this way? What is my guarantee? Why am I spinning round round? What will my future be?

Hey, who do you think you are? Why did you set me free?

I've played the fool for you, I've played the fool for you I've played the fool for you, play the fool

I play the fool for you, I play the fool for you What else can I do? I play the fool for you I've played the fool, I've played the fool for you I've played the fool, I've played the fool for you
