Well I don't do things like I used to
Well I don't stay gone like I used to
Well I don't drop the ball, let everything go wrong
No I don't do things like I used to

And I can't believe the way you love me
Well I don't deserve the way you love me
Well I've caused so many tears, honey why are you still
here
Well I can't believe the way you love me

CHORUS

Well I wake up every mornin'
Glad another day is dawnin'
And I start my day with a kiss and a cup of coffee
Man I sure don't wanna leave
As soon as I'm gone I wanna get back home
And love you all night long
Honey, once you fall asleep
I'm gonna hit my hands and knees
Yea and thank God he made a woman
Love a man like me

Well I'd do anything, girl to keep you
Forever in these arms I'm gonna hold you
Well I've come to understand, just how lucky I am
Well words just can't explain how much I need you

REPEAT CHORUS 2X

Thank God he made a woman
Love a man like me
