I'd probably go fishin' a whole lot more  
Spend every summer some Mexico shore  
And I'd lie there with nothing but nothing in mind

And I'd probably go catchin' them big city blues  
Find out what it's like just to stroll in them shoes  
Down the sidewalk drunk on that high dollar wine  
That's what I'd buy if I could buy me some time

Yeah, and I'd be a cowboy, the wranglin' kind  
I'd waltz across Texas with my girl each night  
And we'd make love under a blanket of sky

Then I'd hit Cape Canaveral middle of June  
Strap on a rocket and shoot to the moon  
And I'd have me a beer just watchin' the world float by

Yeah, I'd get real high if I could buy me some time

But lately the world's spinnin' way too fast  
The bad's catchin' on and the good times don't last  
Somehow it seems like we've all left livin' behind  
Oh, but I'd never die if I could buy me some time

And I'd spend forever bein' a kid  
And I'd never saw my daddy die when he did  
And if I could play God, I'd hit rewind  
And nobody's life would be slower than mine

'Cause lately the world's spinnin' way too fast  
The bad's catchin' on and the good times don't last  
Somehow it seems like we've all left livin' behind  
Oh, but I'd never die if I could buy me some time  
Oh, and you'd never die if I could buy you some time
