Well back up the boat throw the cooler in the middle  
Got a lotta' time gonna kill us a little  
Gonna sink it down deep to the bottom of the creek  
Gonna shuck off my shirt get some muddy on my feet

Chorus

I got some sunshine on the line  
Pretty little bitty country girl sitting by my side  
I got sunshine on the line  
Trying to talk her out a' kiss  
And it looks like she just might  
Be in a "don't give a damn  
If they don't bite" state of mind  
I got some sunshine on the line

She said run me on over to the blue hole baby  
Anchor up the boat jump in you better take me  
In your arms 'cause I'm cold as the beer you've been  
Sippin'  
Way back here's just right for skinny dippin'

Chorus

Well sometimes it don't matter  
If you don't catch nothing but a good time  
Catch a kiss catch a buzz catch a breeze  
A little bit of blue sky

I got sunshine on the line  
Pretty little bitty country girl sitting by my side  
I got sunshine on the line  
Trying to talk her out a' kiss  
And it looks like she just might  
Be in a "don't give a damn  
If they don't bite" state of mind  
I've got sunshine on the line  
I've got sunshine on the line  
C'mon sunshine  
I've got sunshine on the line
