I need love, baby, so do you  
Don't be mean to your bad man  
Rock 'n' roll is a lot like you  
A beautiful thing you can see right through  
And I'm too far gone to be singin' blue  
I'm like a madman

Step right into my junky car  
Don't be mean to your bad man  
And we'll boogie on out to a drinkin' bar  
Then I'll take you home to my sugar jar  
I got a nasty habit, a bad guitar  
I'm like a madman  
Don't be mean to your bad man

Don't you want to be a bad girl too?  
Well, I could make your strangest dreams come true  
I know your daddy's flipped but I ain't through  
We got so many things to do

Well, I can't see why you wanna make such a terrible  
fuss  
Don't be mean to your bad man  
Your big blue eyes are telling me you must  
Aren't you takin' it too serious?  
I know you're just fifteen and you're a walking bust

And I'm a madman  
Don't be mean to your bad man  
You can trust in your bad man  
Don't be mean to your bad man  
Don't be mean to your bad man  
You can trust in your bad man  
Don't be mean to your bad man
