Right there in your face  
I can see the signs  
You're livin' your life just a little too fast  
I know that you think  
You have so much time  
Take it from me it never will last

Trouble ahead, trouble's gonna find you  
You don't know what you're heading for  
Dead ahead trouble's waiting for you  
Trouble ahead and waiting at your door

Something that you said  
Gave you away  
You're looking so hard but you never will see  
Ooh, don't you know  
It's not me you're running from  
What will it take to make you believe

Trouble ahead, trouble's gonna find you  
You don't know what you're heading for  
Dead ahead trouble's waiting for you  
Trouble ahead and waiting at your door

Trouble, trouble ahead  
Trouble's gonna find you  
Trouble ahead

Trouble ahead, trouble's gonna find you  
You don't know what you're heading for  
Dead ahead trouble's waiting for you  
Trouble ahead and waiting at your door
