This might be a good time to say goodbye  
I can't think of one last think we ain't tried  
You're gonna see it your way  
I'm gonna see it mine  
The thought of working it all through again  
Makes me tired  
Makes me tired

Chorus:

Everybody's gonna say it's a shame  
Everybody's gonna lay the blame on us  
For not doing enough  
They didn't have those sleepless nights  
Fightin' hard to make things right  
But we both know when it's this far gone  
We're better off wrong  
Better off wrong

Whenever it could have been easy, we made it tough  
We'd tear ourselves all apart just so we could make up  
After all the drama, baby  
We were back at square one  
Everything that could have saved us  
Had been done  
It's all said and done

Repeat Chorus Twice

We're better off wrong  
We're better off wrong  
Yeah, we're better off wrong
