All the leaves have turned to rust, the air's gotten' thin
I can see my breath, the night is rolling in
The sky is gray, it's cold as a stone
It's just the kind of day I can't stand to be alone

(chorus)

You, you've been on my mind and I wish you were here
Beside me tonight, lying in this bed
Cause I, I'm just not the same
I walk down these streets
I swear I hear your name
But it's just in my head
Wish you were in my arms instead

I wasn't thinkin' about you when I thought I saw your
car
I can't escape you for long, you know I never get to far
Your everywhere I go, cause your everywhere I've been
Your everything I've wanted, and I want you back again

Cause...(chorus)

I have to find away
That's just how it is
I'm stuck here in this place

Cause...(chorus)
I wish you were in my arms instead!
