Just around the bend, nobody knows
Still that's where everybody wants to go
Might be a mile ride up ahead
All I really know is that I'm not there yet

When I was a child I thought like a child
I had no fear of all the things wild
I'll turn to a walk walk, turn to a run run
Turn to a leap here in the wind
Taking that one step forward around the bend
Here I go

I don't know what waits but I am not afraid
I'll just make my own sweet way around the bend

See I've been alone and I've been in love
I've turn the other cheek, I've taken off the grudge
I still got the fight, still got the fever
Got the hunger, got the thirst
I just keep on searching for better or worse
Here I go

I don't know what waits but I am not afraid
I'll just make my own sweet way around the bend

One day I'll wake on a distance shore
My soul, some place has never been before

I don't know what waits but I am not afraid
I'll just make my own sweet way around the bend
Here I go
