Songwriters: Tharpe, R;

This train is a clean train, you know, this train

This train is a clean train, I said, this train

This train is a clean train, everybody riding in Jesus'  
name

This train is a clean train, I said, this train

This train has left the station, you know, this train

This train has left the station, I said, this train

This train has left the station and this train takes on  
every nation

'Cause this train is a clean train, I said, this train

It's the prettiest train I ever have seen, this train

It's the prettiest train I ever have seen, oh, this train

It's the prettiest train I ever have seen

But if you want to ride it, you better get redeemed

'Cause this train is a clean train, I said, this train

Hey, this train is bound for glory, this train

This train is bound for glory, I said, this train

Hey, this train is bound for glory, everybody riding her  
must be holy

'Cause this train is a clean train, I said, this train

Hey, this train don't pull no jokers, I said, this train

This train don't pull no jokers, ah, ah, this train

Hey, this train don't pull no jokers

No tobacco chewers and no cigar smokers

'Cause this train is a clean train, I said, this train

This train is a clean train, I said, this train

This train is a clean train, I said, this train

This train is a clean train, everybody's riding in Jesus'  
name

'Cause this train is a clean train, I said, this train

Hey, this train is a clean train, I said, this train
