

Randy Travis "Turn It Around"

Visit "[Turn It Around](#)" on MotoLyrics.com

I can't believe I'm standin' out here in the yard
Starin' at those tread marks you left with your car
Before you get too far out of town
I hope you turn it around

I didn't think you had it in you
Who'd have thought you'd really leave
It's kind of like some movie I wish I'd never seen
You left and left my world upside down
You've got to turn it around

It's safe to say I've underestimated how strong you are
Apparently girl you've got what it takes to break my
heart
You're everything I need I know, right now I wanna hold
you close
And all I can do is pray that you'll come home

It's probably a safe bet that you ain't comin' back
I made some big mistakes, I'll admit to that
If there's still a chance that we can work this out
My life's gotta change startin' now
I'm goin' to turn it around

It's safe to say I've underestimated how strong you are
Apparently girl, you've got what it takes to break my
heart
You're everything I need I know, right now I wanna hold
you close
And all I can do is pray that you'll come home

I can't believe I'm standin' out here in the yard
Starin' at those tread marks you left with your car
Before you get too far out of town
My life's gonna change startin' now
I need to turn it around, baby turn it around
