(Ft. Raekwon)

Salute to the world! Yeah!
Black diamonds, sense for my... I drop,
Rhyming, reminding mostly of what they forgot,
Real life, so at night rap don't stop,
Keep going, we gonna continue, elevate our plots.
... the hater is gone, singular mind,
... tripping, pimping, one of the best of my nights.
If you forgot... listen to 'em...
Ray, Jay too, form Atlanta and Dray,
War, salute and diamonds, New York and L.A.
OK, playing at, you see the... sway,
For a moment I'll never will, culture overbills, pills party
life,
I told John I'm really nice like Ray!
Naked... I should come up J-Lo,
Spinning diamonds and pearls, I am rap hello!
For those who couldn't catch you, the name from intro,
The info remains the same, I am hot and I...
... like black diamonds,
Real light bright, this is semi-blinding.
My name here, some of the greats,
These are the treasures of my time, diamonds never
outdate!

Chorus:

Black diamonds and pearls!
You could be mine, we're both shy!
Black diamonds and pearls!
You could be mine, we're both shy!
Black diamonds and pearls!
What a life!
Here we go, black diamonds and pearls,
You could be... we're both shy, both shy!
Yeah, I got you!

... keep heads shots, duck the bags under my legs,
We bribe winners, the coalition is slicker...
This is for my... paper day, play with my chemist.
... wash and bread, guns dumping on for the feds,

Walk in night boots, pencils on my head.
I said we wanna come up,...
Our old school... on the runner,
Takes that bread home and black in the summer,
Real niggers know my... I'm one of my team,
... I will jump in the Benz,
What you gonna do, bro? That's my sister, give her
some love!
Or stay away, you might die trying to...
I don't regret shit...
Run around the world twice you could dice in a pill.
Feel... word to mother, just respect...

Chorus:

Black diamonds and pearls!
You could be mine, we're both shy!
Black diamonds and pearls!
You could be mine, we're both shy!
Black diamonds and pearls!
What a life!
Here we go, black diamonds and pearls,
You could be... we're both shy, both shy!
Yeah, I got you!

Make me love you!
Make me love you!
