hard beats of boom if i die with this hip hop
yeah i die without this hip hop, this hip hop
extra extra read all about it,

late nights chillin' not really high of shit
can't afford it i got work to hit with no benefits
and a car to drive that really don't go too fast
pushing it to the limit to the day that i crash,
so im up nights in studio working for pay
tryin' to make some classic music that my children can
play

for the kids, kids influence and they can reincarnate
me and they lines that they rap that they someday will
make..

chillin' with mac 10 after 2 just left the due finish rockin
the stage

that's how hard work pays, i choose top ten
eight thousand horrahs got they hands high as tight
ropes Jenel Monae so i spend days and nights on mics
the life

i want it to and i could have it too if i just kill in the both
niggas ain't get enough yeah we back in the cut Aprils
first fools day but cho this aint a bluff, its the return the
due-o that you know as the illest on scene to make it go
hip hop to let you know rap and mac miller yeah we're
back in the spot so one time for all the lovers yeah one
time for hip hop.

chorus:

extra extra read all about it
hip hop but what i do without it
extra extra read all about it
turn it up and play me in ya outting

on the track ridin a shift nascar follow my drift jeff
gordan recording the cure for the water priceless
...don't need to reward them, i feel super blaming on
the buddha

cats night but they still .. champion..

and beyond ..look that hardest ..

or some power ..look the end if you start this
paper pencil you f*cking .. this most flow dough...

we're tired then the big really rappers...

outside the ..

[chorus:]
