Let me think, where shall I begin, counting back blast
off 5 months sin
All my toes are tan, reach a height rich kids, never
projected of them
While a I , a picture just to see you again
While they're skipping work, cutting hours and airs, just
be on your end
Spin Japan yen, dollars never make sense,
change I don't foresee, love never out end
Let me think, where shall I begin

Coming up, fakers never were friends, nobody's
perfect, nobody to them
I've been on my Jesus crossing over in slim, out the box
in the spot
never picture me in, oh, well, hell, get some coping
them thin
Opinions holdin a way and measure eye on eye, don't
see my view
David on the shoulder Goliath, high as, in this coming
of faith, or age
of grass hopper niggers jumping all day
Their ...is here, Caroline greener,
on this side of the law, and the arms bullshit
so watch the hands took palm,
truth , maneuver, through , truer, holding my arms
Beaches, lawns ain't the sacrest in my place
Grabbed in a barrel, snakes and blades
For anyway, I still love you the same,
too far ...to hate... I hope that you changed

Let me think, how shall I proceed? Success, the , I said
that I need
I came in the game on a Tuesday with no name
And heard of , yo I'm 15 of lane
I've been murdering mikes, so sit just me long , in
these games that I like
That a thirstful spike, miss the window at night
I keep my ear to the street hear you talk shit, tight
You my nigger , still forever?
As I recall Jay Z in eye sight,

for freestyling and having fun without words
Iceberg, , meet my ,, yo I heard Jay elected won the 99
check
and just to say, warrup, I like that B girl rapping
Goose ain't the same but I won least I came, bitch
stereo
Still I welcome the fame, co signing,
finally co signing, death Jim, ...on dotted liners
That's the line most niggers can't say in rhyming
Appreciate you rocking with me forever, my time is yo
let me think, where shall I take you,
all the peaks wanna know who now I'm loving lately
Yeah, I shall not name, him, flim, love sick, , shit
The pain yeah, don't make much sits, how much loving
we in
Now let me think, a minute that shrinks, hope flow
crazy , leaks
Maybe not, I'm still re box, is your master and I won't
say hot tops
Expand the meet needs, the ways hot socks,
I keep peak for the blocks necessity
January, February, I talk, most years I wanna, keep an
eye on a tie wanna
You wash you ya on my way out of here, you should
wave California
One on the board, I'm still abnormal
Crazy flow, wicked rivers,
to the game charge my flow shit I make it quiver,
shiver, deliver, a start in born, january 21 and a big girl
far
I'm doing well, more of the rest,
multiply my growth, no nigger contest, yes
Let me think, how shall I begin?
Stressed overwhelming if I never should, when?
How my mama try and help me while her patients were
,
Share fear entire not , the lamb
I gotta make it, no more thinking dear friends, night,
begin enough to end
We taking over dear friend.
