I burn, but shown side
Now it ain't nothing hotter than I
They roll up, like they could kush,
Like they be smoking since 5
Pull out like 2 9's and I aim it dead at they eyes
And tell them lyrically motherfuckers you had made
your demise
Jedi, the black chapter like the bone in they thigh
Been hip to the game, niggers lame I am July
Working my fire, know the fucking lighter the sky
Ufo with the flow, I'm like that alien guy
Et, hot power, I three, I see,
With it, lyrically niggers never touching a sick
A sale, hard to pass me, I'm too cold, they ain't well
I jail, with black, they pick niggers smell
The shit coming through several back monkeys at zoo
Bananas , each side, and show respect cause the west
coming through
It's like lyrically Big and Pac , was cool
Motherfucking , making till the skies turn blue
My view is , sitting at window,
We high, touching the sky and rest of them sheep
I'm never, when I'm standing out in the heat
, most niggers that lag
Behind, never they catch up like the bridges they,
Throw up your 3, rapping the flag
, I'm rangers, now these niggers can't stand it, I'm
gone

Looking to the new vision in mind
, my bizness you run it,
I'm shitting on shit that was shifting your image
, you beat it,
Admit it, the hennesey,
Depending on what you pretending to be
, . When you know I fold, 4 in the morning
, so the fortune of gorgeous, sheesh
