Ft. Big K.R.I.T.

I'ma country girl, ... a lot of be where I'm from
...when I speak ... hold a lot of fresh air in my lung
So be it,
Ain't gonna change myself for no one, never ...
...jungle, less ... grass and dirt I will ball
So be it
In the store walking in my house shoes ...
...so be it
And the car's here, we drive real young
Gotta add some sugar in my tea, sweet on my tongue
So be it
... play spades, talking sports and cut them laces
... our lace is untied ...
So be it
Show respect and bless my ... for his down
Say no sir, yes no m'am , spoken too around town
But so be it
... pump that volume ... when I ride
...when you speak from your mind
The land of folks ... that lock the door to your house
And church 3-4 times in a week
And all my aunts, uncles and grandmas all live on the
same street
So be it
Some us hot ... when we young, but when we grown...
... medicine out of teas and leaves
So be it
Cause you know the ... I still represent for mine
Gotta give it all I got, cause I ... no time
We all got family in the ... don't believe me
We welcome you all with open arms, come see me
Opened our ... rear, ... in our kitchen
...thankful for what was given ...
...colors slowing and educated
But won't see it to my face, most never been, most
never seen
They can't enjoy what I did...
And I was surrounded by kids
...never hold your head down boy be proud of your skin

Lead that ...is in your heart and Jesus died for your sins
... times she ... I draw her eyes, I know how hard times
be
She said that love will cost you everything but pain
comes free
Beeing ... you gotta stand on your own
She taught me well ... so be it if you thank me ... be
snapping
To get from the dirty side to the top of the mapping

... so be it
Cause you know the ... I still represent for mine
Gotta give it all I got, cause I ... no time
We all got family in the ... don't believe me
We welcome you all with open arms, come see me
... so be it
Cause you know the ... I still represent for mine
Gotta give it all I got, cause I ... no time
We all got family in the ... don't believe me
We welcome you all with open arms, come see me.

Thanks to Andrei
