A new day forrow mission.
Anither sunrise in your heart.

Gimme tears of thr wrong,
the hate of cinvicts.
The glamour of the dammed.
Rule of benedickt.

I've never seen a dawn like this, before.
Tears on the night turn to, diamonds in your eyes.
In the face, of the wold's, ugliness.
Sister of charity, remains a mystery.

Love shines over aggression.
Another wound heals in your heart.

Gimme fears of the strong, the warfare
politics.
The decay of the west.
Rule of Benedict.

I've never seen a dawn like this, before.
Tears on the night turn to, diamonds in your eyes.
In the face, of the wold's, ugliness.
Sister of charity, remains a mystery.
