"Falling Upside Down"

Visit "[Falling Upside Down](#)" on MotoLyrics.com

There's no gravity up here
It's kind of hard to explain
Every time I'm holding you
It's like backwards rain - Yeah

[CHORUS]

You lift me up like a kite on a string
Like a bird on newfound wings
So high on you I'm floating and flying around
Your love's like fallin' upside down

You've got me so lightheaded
It's a dizzy mood
Spinning uncontrollably
And gaining altitude

[CHORUS]

You lift me up like a kite on a string
Like a bird on new found wings

So high on you I'm floating and flying around
Your love's like fallin' upside down

[BRIDGE]

Look at me
Used to be, I could keep my feet on the ground
When you said you could take me higher
You weren't playing around
[you weren't playing around]

[CHORUS]

You lift me you like a kite on a string
Like a bird on newfound wings
So high on you I'm floating and flying around
Your love's like fallin' upside down
