From time to time I have regrets
For all the things I didn't say
That were on my list
From time to time my memory slips
But you're the one thing in my life
I won't forget

[Chorus]

There'll never be a minute of the day
I won't think of you
My feelings are so strong in me
I feel it through and through
There'll never be a night that's so dark that we won't
shine
Or a dream that we've lost that we can't find
You'll always be, oh the one for me

I think of you from time to time
And in between

[Instrumental]

[Repeat Chorus]

You'll always be, oh the one for me
I think of you from time to time
And in between
oooo yeah

You'll always be, oh the one for me
From time to time
And in between yeah, yeah, yeah, yeah
Yeah, yeah I do
I think of you from time to time
And in between, yeah
