Stand in the corner
I ask for the dust to move once again
Still peeping around
Still wearing the same thing
You're chasing it all
All again
You're chasing it all

For the second seal

Colouring thoughts
With shaded affected different ways
Hard to impress
The mood is falling 'cause
You're chasing it all
All again
You're chasing it all

For the second seal

Lying under the second seal
Well let's start the game
Because I play it all night long
And I chasing it from
The night before

Wait and watch them fall
I'll wait and watch them fall
Wait and watch them fall
Wait and watch them fall

Till I saw

An empty face wondered for
An hour or so
Are you ready to hear
The night before

Started out with two
With the girl who listens to her clothes
Lying under her second seal

Lying under the second seal
Well let's start the game
Because I play it all night long
And I'm chasing it from
The night before
