Ooooh yeah, ohhhh, uh

Well it's a simple thing
A look, a laugh, a clover ring
And all those little scenes, dreams are made of
And it's evident that when my hopes and prayers are
spent
Well there she came and there i went

Ohhh, someone makes it mistifying
Baby, there's just no denying that every time we touch
Heavenly it's so divine, but you know what just blows
my mind
Is the miracle of love, just an ordinary love
Just and ordinary love

It's just another day
I kiss goodbye and i'm on my way
Rushin through the maze right back to your arms
And it's difficult, just a boy and just a girl
Out on screen and around the world

Ohhh, someone makes it mistifying
Baby, there's just no denying every time we touch
Heavenly it's so divine, but you know what just blows
my mind
Is the miracle of love, just an ordinary love
Just and ordinary love, yeah, ohhh yeah

Ooooh, someone makes it mistifying
Baby, there's just no denying every time we touch
Heavenly it's so divine, but you know what just blows
my mind
It's the miracle of love, just an ordinary love
Just an ordinary love
