Verse:

I've been drowned out by the rain  
Still im wishing i could stay  
But im sorry my old friend  
I've got to leave you once again  
And despite what i might say  
I measure pleasure by the pain  
Measure pleasure by the twisting  
Of the metal in the vein  
And it might be very hard  
Cant be more than what we are  
Cant be more till it's over

Chorus:

Here comes the resurrection  
Everybodys got to die from something  
Nothing ever left to leave you when you go  
I saw you strip my babies  
Animal the way you cut them might be  
Animal the way i cut you from below

Verse:

So you goad me into spite  
Its the cruelty that you'd like  
It's the waiting for the one thing  
That you never could define  
Fill the longing just because  
Emasculate the ones you love  
Have to wait till it's over  
We are the less than mighty  
Never was a way i thought it could be  
Never quite enough to leave you when you go  
I saw you strip my babies  
Animal the way you cut them might be  
Animal the way i cut you from below  
Ive been drowned out by the rain  
Still im wishing i could stay  
But im sorry my old friend  
Ill have to leave you once again  
And despite what i might say  
I measure pleasure by the pain

Measure pleasure by the twisting  
Of the metal in the vein  
And it might be very hard  
Can't be more than what we are  
Can't be more when it's over

Chorus:

Here comes the resurrection  
Everybody wants to die for something  
Never thought I'd live to leave you when you go  
I saw you strip my babies  
Animal the way we cut them might be  
Animal the way we cut them from below  
And if anger is the ending  
For the thing that we've become  
For the mother and the father  
And the sister and the son  
Through the shallow without wanting  
Realization to mistake  
Through the ugliness  
The open all the things we can't replace  
I will control  
I will control  
I will control
