No limits, no lines are drawn
The whole world disappears when we're alone
That thin white cotton dress is blowin' in the wind
She takes my hand and the dance begins

With every move she makes, I'm deeper than I've been
Holding on and letting go, she just keeps givin' in
Takin' me higher and further, there she goes again

Givin' more than she takes
'Cause it's more than love she makes
She goes all the way

No questions, no talkin' at all
Only the sound of our hearts as they fall
No matter what I need, her answer's always yes
I only have to dream and she does the rest

With every move she makes, I'm deeper than I've been
Holding on and letting go, she just keeps givin' in
Yeah, takin' me higher and further, there she goes
again

Givin' more than she takes
'Cause it's more than love she makes
She goes all the way

With every move she makes, I'm deeper than I've been
Holding on and letting go, she just keeps givin' in
Takin' me higher and further, there she goes again

Givin' more than she takes
'Cause it's more than love she makes
She goes all the way

My baby goes all the way, the way
She goes all the way
My baby goes all the way
Oh, yeah, yeah, yeah
