There's that star, the one they said we'd never reach
And just close your eyes
There's the missing moon, there's the milky way
Heaven's straight ahead, we'll be there today
Rainbows right and left, sunshine everywhere
If it couldn't be baby, how did we get here?

Some say we'll never get it off the ground
And some say we'll never make it out of town
And someday we'll end up a world apart
And some say we're a couple of crazy kids
And some say that's exactly what they did
And I say you got to go with your heart
And baby, look where we are

There's that home, the one they said we'd never share
And just close your eyes
There's the picket fence, there's our mailbox
Puppy on the porch and roses up the walk
Shinny minivan, kids in every seat

Someday we'll look back and say, "It wasn't just a dream"

Some say we'll never get it off the ground
And some say we'll never make it out of town
And someday we'll end up a world apart
And some say we're a couple of crazy kids
And some say that's exactly what they did
And I say you got to go with your heart
And baby, look where we are

Some say we'll never get it off the ground
And some say we'll never make it out of town
And someday we'll end up a world apart
And some say we're a couple of crazy kids
And some say that's exactly what they did
And I say you got to go with your heart
And baby, look where we are

Oh oh, some say
Some say, yes they do

Ooo, some say, yeah
Someday, some say
