Think about the way the earth revolves around the sun
Gravity holds it all in place and keeps it all from coming
undone

That's the way, that's the way I feel about you
Think about how a baby cries to feel his mother's
touch

And how he finally rest so peacefully when she finally
picks him up

That's the way, that's the way I feel about you
Oh they say the sky the limit, but I say there is so much
more

Because your love takes me higher than I've ever
been before

Where the heavens hold the stars that why they stay
where they are

I know why they shine the way the do

That's the way, that's the way I feel about you
Just like a soldier fights for what he knows is right

He gladly gives his last breathe of freedom and he
wouldn't even think twice

That's the way, that's the way I feel about you.
Oh they say the sky the limit, but I say there is so much
more

Because your love takes me higher than I've ever
been before

Where the heavens hold the stars that why they stay
where they are

I know why they shine the way the do

That's the way, that's the way I feel about you
Oh I may not be a wise man but I know one things is
true

That the reapers only reason is to find the ocean blue

That's the way, that's the way I feel about you
(That's the way I feel about you)

That's the way, that's the way I feel about you
