There you are standing strong
I'm a leaf holding on
You believe like a child
In this fire runnin' wild

Oh, I love how you see
Right to the heart of me

You're a waterfall, washing over me
I'm a thirsty man, let me drink you in
But I am on my way, you're a mountain top
When I reach for you, your love lifts me up
All that I want is to be where you are

I'm the frozen ground, you're the warm sunlight
Shining down on me, baby, just in time
I have never been in a love like this
Oh, you move my soul every time we kiss

And I love how you heal
I can't believe how alive I feel, yeah

You're a waterfall, washing over me
I'm a thirsty man, let me drink you in
But I am on my way, you're a mountain top
When I reach for you, your love lifts me up
All that I want is to be where you are, where you are

You're a waterfall, washing over me
I'm a thirsty man, let me drink you in
I am on my way, you're a mountain top
When I reach for you, your love lifts me up

Lifts me up, your love lifts me up

I am on my way, you're a mountain top
When I reach for you, your love lifts me
