Makin' It Easy
Raspberries
by David Smalley

Just got into town on a midnight plane
After this is over I'll be leavin' again
Somebody wants to put the pin on me
She's sayin' that it's mine but I know that can't be

Makin' it easy for me to be movin' on
Makin' it easy for me to be a long time gone

Met her at a job, was a Friday night
She was sittin' in the front row lookin' outasight!
Sang my song to her all about romance
Ooh, we got together and she took a chance

Makin' it easy for me to be movin' on
Makin' it easy for me to be a long time gone

Ya know I left that town, they're all the same
I was doin' all right til the letter came
She said, "I'm sorry, baby, but just the same,
I got to find somebody to take the blame, oh yeah."

I said, "What's this, babe? You know I got no time
To be worryin' 'bout a problem that I know ain't mine.
You've had too many lovers to know it's me
You better find somebody else, I wanna be free."

Makin' it easy for me to be movin' on
Makin' it easy for me to be a long time gone
Makin' it easy for me to be movin' on
Makin' it easy for me to be a long time gone
Makin' it easy, I got to be movin' on
Makin' it easy, makin' it easy
