I put that mac down, she put that mac on
That mean I got more game than that calcom
I applaud her, I take my hat off, I give her good wood,
she call me hacksaw
Oh, jim digging, margella, ery color
This loving will get you proved
IÂ'm so stellar, stellar
And you ainÂ't even gotta ask, might not be your first
But IÂ'm better than your last

When I... the soowee, make a fellow spend money that
he donÂ't got
Cause itÂ's that hot, better be good
You better, you better be good to me, yeah
You better, you better be good to me
If IÂ'ma give you this too damn, show enough
Keep a man at home when I put it on
You better be good
You better, you better be good to me, yeah
You better, you better be good to me

If IÂ'ma give you this lord have mercy, keep you thirsty
IÂ'ma need you to prove youÂ're worthy
You wonÂ't find another like this,
Since you know that you know what to do with it
Baby what IÂ've got, one and only
And if you want this love, go and show me
But you better be good
You better, you better be good to me, yeah
You better, you better be good to me
This love here is one and only
You better, you better be good to me, yeah
You better, you better be good to me

If IÂ'ma give you this whoa, canÂ't tell me no
When I put on a show, anything I asked for
You better
You better, you better be good to me, yeah
You better, you better be good to me
If IÂ'ma give you this all mine, no lie
So damn good make a good man cry

You better be good, whoa
You better, you better be good to me, yeah
You better, you better be good to me

If Iâ€™ma give you this lord have mercy, keep you thirsty
Iâ€™ma need you to prove youâ€™re worthy
You wonâ€™t find another like this,
Since you know that you know what to do with it
Baby what Iâ€™ve got, one and only
And if you want this love, go and show me
But you better be good
You better, you better be good to me, yeah
You better, you better be good to me
This love here is one and only
You better, you better be good to me, yeah
You better, you better be good to me

Ok, I know what to do with it, 4 minutes cool n-gga,
Iâ€™m a fool with it
Iâ€™m more than happy, thereâ€™s â€¦ I go and get it
This louie ragged is a yellow flag, know Iâ€™m official
You know Iâ€™m giving you the bizz girl, ha?
Donâ€™t be denying what it is girl, ha?
Put it in your life and your ribs girl
Keep playing with me, you donâ€™t get it like a â€¦
In time, Iâ€™ma make your lips â€¦ shits come
Make your dreams real, change your whole world
Cause you wonâ€™t never wanna leave, you go girl

Donâ€™t get it messed up, Iâ€™m special, special, special
And not everyone knows how to care for me no
So if I give you a chance Iâ€™ma need you to show me
That you know what valuable is when you see it

Baby what Iâ€™ve got, one and only
And if you want this love, go and show me
But you better be good
You better, you better be good to me, yeah
You better, you better be good to me
This love here is one and only
You better, you better be good to me, yeah
You better, you better be good to me
Baby what Iâ€™ve got, one and only
And if you want this love, go and show me
This love here is one and only
