Way? Way does love feel better when it's new?
Everybody sais '
Wandering this time it is true?
Way can's see what I'm gonna find
Already through this a couple time

Wandering this time it is mine?
I am thinking in everything
Why can I let go tonight?
Feel it passing me by
I don't wanna feel like I, I won't feel time pass
I don't wanna fight again and again
Got to start something new
It's only thing that I can do
It gets harder but I give a try falling again
Scars for been an only me and my heart
Wanna a better ..every time
I am thinking in everything
Why can I let go tonight?
Feel it passing me by
I don't wanna feel like I, I won't feel time pass
I don't wanna fight again and again
Got to start something new
It's only thing that I can do
Every time it's harder but I give a try falling again
It gets harder but I give a try falling again
Feel it passing me by
I don't wanna feel like I, I won't feel time pass
I don't wanna fight again and again
Got to start something new
It's only thing that I can do
It's get harder but I give a try falling again
