Ohhhh ohh
Ohhhhh ohhh

Verse One:

I'm fallin' awake
from a dream
that maybe one day this
would all be ok
But everyone goes
through the pain
Feels the beat of the rain
looks for someone to blame
(ohhh)
I've been hurt and cause
some heartbreaks in my days
(ohhha)
That's just it
No one's perfect
but still, we wanna try

Chorus:

Cause if my heart decides
to give up on me
And my brain decide
to slow down
And my body's left with
no air to breathe
Tell me who do I turn to now
I'm only human (ohhha)
I feel pain too (oowha)
We're all so different
I'm just as human as you
(whoaaaahh)

Verse Two:

See, I felt the weight
of a bolder
on top of my shoulders
and carried it all
When everyone thought I
was foldin'

I'm lettin' hope in
I gave it all I got
Nothin' impossible (nooo)
I'm livin' proof of that
Can't you see I'm opening
but what if it's
all just closing
(whoaawhowhowooo)

Repeat Chorus

Brigde:
Darkness is temporary
Soon will come a light
(ohhhwhoowho)
And I made it through
the very coldest part
tonight (nooo)
I tried to find
the reason why
But the answer seems so far
And when it feels
like it's all over
Right back at the start
(whoowhoo)

Repeat Chorus Again

Sorry if it's not all
accurate but I think it's
just maybe some words that
I got wrong but oh well.
Here are the lyrics ! And
Ennjoooooy (:
