"Invisible"

Visit "[Invisible](#)" on MotoLyrics.com

Why am I scared to fall in love?
Afraid to fall so fast?
Cause every time I fall, it seems to never last
Now you're like one in a million
Feels like I hit the lottery

It's like we're in a favorite scene
Upon the movie screen

[Bridge]
But to love you first I gotta love myself
Take care of me before I can for someone else
And I can't fly with broken wings
And be ready for what love brings

[Chorus]
Cause if we end in tears, I don't want my happiness to
disappear
This time I gotta take it slow
I don't wanna be invisible
And if we're meant to be
I know I can make it if I start with me
And I'll be ready when I know
I'm not gonna be invisible

I don't want a broken heart
But tears dry on their own
And if this love affair don't work
I don't need another sad song
I don't mean to keep you waiting
I just need you to be patient
Then you and I, we can make it somehow

[Bridge]
But to love you first I gotta love myself
Take care of me before I can for someone else
And I can't fly with broken wings
And be ready for what love brings

[Chorus]
Cause if we end in tears, I don't want my happiness to

disappear
This time I gotta take it slow
I don't wanna be invisible
And if we're meant to be
I know I can make it if I start with me
And I'll be ready when I know
I'm not gonna be invisible

Need to spend a little time and get my feet on the
ground
You're the answer to my dreams, I don't wanna lose
you now
Tryin' to find a way to repay, myself for all the mistakes
I've made
I think it's you, first I gotta be ready for love

[Chorus]
Cause if we end in tears, I don't want my happiness to
disappear
This time I gotta take it slow
I don't wanna be invisible
And if we're meant to be
I know I can make it if I start with me
And I'll be ready when I know
I'm not gonna be invisible.
