Hide your words in you, masks are lost  
Unshaped thoughts, secrets and hopes  
Always bleeding, the endless lie  
Gentle words of cliché, so easy to trust  
An abandoned face severed with lies  
Patched with masks, truths denied  
Strikes of pluck are fakes of an illusive heart  
Sham visions, delude to deify

Strained morality convincing, souls of purity has torned  
Is deceit the only way of seducing  
Not to crawl all alone?

Owing what you've gained to a swarm of lies  
Unfaithful respect, a darkened price

Rise up, never stop  
It's just a drama on the shores of crest  
Embrace the truths trauma  
Strikes of thoughts are fakes of an illusive mind  
Bone house corporation, temple of lies

Just push the door and come inside  
Let yourself for a crime, be inspired  
Bone house corporation  
Industry of suicide
