Goatshaped masks, hamstringing lash  
Noisome divine serfdom  
Vehemence with no submission  
Moribund world  
Cancerous growth, no anaesthesia  
Nonentity, hate and conversion  
Hail woe!  
All holiness now scuttle, impurity  
Cloven hoofs in sacred ground  
Genuine inner pain, immortality

Through the abysmal fog, Infernal Majesty!  
Face the soil, who twists the knife?  
Cloven hoofs, goatshaped masks  
A curse that sounds so merciless  
Drape yourself in status torment  
Genuine fear, horn-crowned rats  
Destruction!  
The final command
