Legions arise from the graves  
Retribution n the lambs of god  
The cold winds of darkness blow strongly a shadow of  
infernal might  
Unleash the black winds of hate  
The fear from the heart of hell unveil the source of  
hellish creation  
Your god is dead  
The torture  
The pain  
Decadence  
Die nazarene  
Pure blackness  
Pure grimness  
Hail greatness  
Evil is the key  
Perdition and bloodshed  
Sathanas glows in the dark  
The splendour of hate  
The beauty of the devil's mark  
Into the realm where nothing dies  
We'll rise again  
We are the first in the face of god  
We are the incubus breed  
Pure hellish blasphemy  
Against lambs of god
