Monumental suffering
Slipping out of control
Clogged arteries strain
Medicated dementia

[Chorus:]
Cancerous growth
Prapalegic sodomy
Scarred erection
Acting out impulsive rape scenes

Bound and gagged
Mucos lubricant applied
Thorazine injected
Convulsive stumps subdued

[Chorus]
Fornicated abomination
Rotting in the walls
Liquid cellulite fever
Traumatized by reflection

Freak of nature
Born insane
Frontal lobe missing
Crustifucked tattered brain
