[Chorus]

The chemical imbalance  
The craving begins  
From the darkest depths  
Summon the beast within  
Gorephobik thoughts  
Images of the insane  
I cut myself to embrace the pain

Inflicting deep wounds  
Immaculate arteries awaken  
Primal rage continues  
Phantom limbs aching

[Chorus]

Sadomastic masturbation  
Nothing left inside  
I've killed myself so amny times

Drop by drop  
I watch my life flee  
From this shattered pile of freak  
Writhing insanity
