As hearts entomb a twilight fall  
Of pure enrages  
A grim, dulcet, mute darkness

An overture embraces mure  
Reflects a pulsing moon  
At rise revelation cruel

For underworld burning in cold  
Ruins that hold verses unfold  
A storm that calls them all  
Inflames of roaring fire  
Shall burn with all desire

Dark!

Inspire demolition reverence  
Invoking mythological Phases  
Of death horn-head retraces  
The flesh of man...

Forces of hell in hand  
Damnation arrival demand  
Arises From abyss to stand...
