There's poison in me
Running through my blood
Stealing souls from me
When the venom becomes a flood

When you felt
like hell
All because of me
I just wanna be

Dead
There's nothing left
To be alive for
I just wanna be dead

When I am out
Searching for my soul
Looking all about
Don't know where to go

When you felt
Like hell
All because of me
I just wanna be

Dead there's nothing left
To be alive for
I just wanna be dead

When you felt
Like hell
All because of me
I just wanna be

Just wanna be dead
There's nothing left
To be alive for
I just wanna be dead
