Long ago evil fought (Vulgard) the wolf, the king of  
northern hills,  
Again evil rose from east, led by fighter faster than  
death, riding the horses of might.

(Keiatl) the black conquered with mayhem, fought and  
won,  
(Vulgard) died with honor.

(Kjarten) the son no one ever saw was meant to be a  
warrior,

Escaped with tide to west, armed with the ghost sword.

Oathed on his father's blood to revenge... (x2)

(Magnus) has the gift of prophecy, apocalyptic  
scarred knight with ghost sword  
When (Kjarten) suddenly appeared.  
(Magnus) sacrificed, (Gunnar) taught him to be a wolf  
on battlefield.

Oathed on his father's blood to revenge... (x2)

When the time came (Keiatl) was faced by ultimate  
gust of fire, from (Kjarten's) eyes.  
Sky went gloom, ground shaken, a war of darkness.

(VULGARD) ... you are avenged
