Insomnia, greetings abductress of light  
Abhorrence 'tis the ravenous time  
Coming to burn in the lake of damnation  
The echo of time  
Grieving the terror the harsh one's death  
Embrace darkness the kiss of the beast

The alpha, conspiracy of evil

The summon... possessed  
Downward the Anfang of demise... we weep  
Rampant the sight. Clairvoyant...  
Fire evil destruction and hate  
Endless black silent our fate

Master of evil... the sign of the horns  
Painting the world with blood...
