Surround me  
Surround me

.. in the life, feel you in the night,  
All I need is a touch,  
Fire in the soul, make me lose control,  
All I need is a touch,  
Like the air I breath, you are all I need  
All I feel is your touch.  
Spoken in the world, you are all I've heard,  
All I need is your touch.

Surround me, na na na na na  
Surround me.

Like the way the night, move me through the night,  
All I need is your touch.  
I'll be your alibi, me and ..supply  
All I need is your touch.  
Like the air I breath, you are all I need  
All I feel is your touch.  
Spoken in the world, you are all I've heard,  
All I need is your touch.

Uhh, uhhh  
Surround me, na na na na na  
Surround me.  
Surround me, na na na na na  
Surround me.

Thanks to Greta
