Lipstick on my face  
Thunder in the sky  
The shades are drawn  
Don't ask me why

But with the ghost riders on the go  
I think you know  
But with the ghost riders on the go  
I think you know  
It goes something like this

Crater in my brain  
Where the strippers go insane  
Cabin number 4  
Aint gonna smile no more

But with the ghost riders on the go  
I think you know  
But with the ghost riders on the go  
I think you know  
It goes something like this

Attack of the ghost riders
