Tonight the stars shine bright and the sky is clear like  
water  
Mountains high through the valley the river floats in  
glitter silver

The land of my own is gonna be strong  
King of the world, protect my home

Dragonheart is fighting for the victory - Dragonheart  
Dragonheart is gonna set us free

The rain is falling and it washes away the crime  
The pain is fading if we stand the test of time

All for one and one for all, freedom call  
That's what we're fighting for

Dragonheart is fighting for the victory - Dragonheart  
Dragonheart is gonna set us free

Dragonheart is fighting for the victory - Dragonheart  
Dragonheart is gonna set us free  
Dragonheart accept nothing less than victory -  
Dragonheart  
Dragonheart is gonna set us free
