You are always a friend...
Someone I can talk to.
Always a friend
Someone I can always turn to
Time and again...
[?when's] my whole world
Has caved in..

You are always a friend...
Someone I can believe in
Always a friend..
Someone I've been needing so
[?whens all?] at an end
So I can lean on
Every now and then

We've been friends from the begining
I loved the way you smiled at me
Oh can't you see.... I'm winning
Now my only wish
Is that someday...
I will be...

Always a friend
Someone who will always love you
Always a friend
Someone who'll be worthy of you
Right from the start
You and me together,
The two of us , forever
Seeing in you the love
I wish you'd see in me...
Let it be...
Always a friend...
Let me be...
Always your friend.
