When I got misery
Oh, my, where are you?
Honey, honey, oh, honey, honey
Where can you be?

Whisperin' when the lights are low
To each teardrop on my pillow
Honey, honey, honey, honey
Where are you?

I crossed the scalding desert
Just to be where you are
I want you, need you, love you
Still we're apart

When I want to hold you
Oh, my, where are you?
Honey, honey, my honey, honey
Where can you be?

When I want to hold you
Oh, my, where are you?
My honey, honey, oh, honey, honey
Where can you be?
