Dark day people  
I know things will come my way  
Some day people  
I know things will come my way

But as of now it seems  
To live it just don't pay

My body is made of heartaches  
Blues is my middle name  
My heart is made of heartaches  
Blues is my middle name

Makes no difference how hard I try  
I'm mistreated just the same

Everyone's against me  
I don't care where I go  
Yes, everyone forgets poor me  
I don't care where I go

But I feel that someday, somehow  
Hard luck will leave me I know
