snow is fallin, fallin on the cold cold ground
snow is fallin, baby, fallin on the cold cold ground
gloom and misery, gloom and misery all around

I used to be so happy now all I do is cry
I used to be so happy now all I do is cry
gonna buy myself a coffin, well I'm gonna lay right
down and die

well people if I die tomorrow, who's gonna cry for me
people if I die tomorrow, who's gonna cry for me
well, I aint got nothin but these blues and misery

I guess you better come on and get me, aint got nothin
to lose
I guess you better come on and get me, aint got nothin
to lose
I don't feel like livin' life ain't nothin' but the blues
